Developed by leading independent firm BIS-Oxford Economics, this report provides...

Identified major engineering project work in Queensland (economic infrastructure)

5 year forecast of funded and unfunded, public and private sector projects

Funded $21.5 billion*

$39.1 billion total*

166 projects

Unfunded $17.6 billion*

To improve the health of our pipeline, industry suggests governments...

- Reconsider long term asset leasing (State)
- Consider increased debt financing (Commonwealth & State)
- Expand the number of City Deals (Commonwealth, State & Local)
- Improve the pace of assessment and approvals of MLPs (State & Local)
- Establish the rules for value capture funding approaches (Commonwealth & State)
- Improve certainty of government co-funding of Transport Projects (Commonwealth & State)

Unlikely

11 projects valued at $4.39b

Prospective

20 projects valued at $1.67b

Credibly proposed

56 projects valued at $11.54b

Announced

20 projects valued at $2.65b

Under procurement

15 projects valued at $2.37b

Under construction

44 projects valued at $16.49b

2017 Major Projects Pipeline Report

Unlikely

11 projects valued at $4.39b

Under construction

44 projects valued at $16.49b

* Engineering Contracts Value
South East Queensland, the Surat Basin and Northern Queensland represent the **strongest levels** of major project activity.

With full pipeline funding...

- **$12.9b** South East Queensland
- **$6.9b** North Queensland
- **$7.4b** Surat Basin

**Funding split**
- 51% public
- 49% private

**Fast facts**
- **$12.9b** South East Queensland
- **$6.9b** North Queensland
- **$7.4b** Surat Basin

- **18,000 jobs** supported each year on average
- **9,800 extra jobs** supported during the year of peak expenditure

**Total investment in construction down 40% since 2013/2014**

**MPR pipeline value dropped from $65b 2012–2017 to $39.1b 2017–2021**

**33% of major project work forecast for SEQ, 67% for the rest of Queensland**

**Compared to the previous five years, roads and bridges work is forecast to rise 120%, with rail and harbour work forecast to rise 35%**

**Total value of the pipeline has grown from $32.3b in the 2016 report to $39.1b in the 2017 report**
