

QUEENSLAND MAJOR
CONTRACTORS ASSOCIATION

Major Projects Report Policy

- QMCA is committed to inform and stimulate discussion and debate on activity and current issues in the Queensland construction industry. Primarily this is achieved through our annual publication of the Major Projects Report with a half-yearly update to address midterm changes.
- In order to promote broad industry engagement and acceptance we work in partnership with relevant industry bodies such as CSQ and BIS Shrapnel
- QMCA will continue to build credibility with Government, the private sector and the industry generally through thorough assessment and a solution based approach to issues identified
- We will leverage public and media coverage of industry issues to ensure they are elevated to appropriate forums to allow appropriate debate and solutions to be enacted.
